

SE2 Indoor IR Dome

2MP dome with HDR and built-in IR, for indoor applications

For customers who have challenging lighting conditions and need a flexible field of view, the **SE2 Indoor IR Dome** from March Networks® integrates IR LEDs and High Dynamic Range (HDR) to deliver high-quality images in a variety of lighting conditions, from bright light to complete darkness. And the adjustable zoom and focus settings allow you to get the perfect field of view.

Key Benefits

- ▼ **High Dynamic Range (HDR).** The camera blends the best parts of several separate exposures together to combine the most focused, well-lit, and colorful parts of the scene.
- ▼ **Integrated Smart IR.** The built-in LEDs provide uniform illumination in total darkness, which means users will see high-quality, low-noise video from 100 feet away. Additionally, the camera automatically adjusts the intensity of the IR LEDs to compensate for the distance of an object, so the object is not overexposed when it gets too close to the camera.
- ▼ **Save money on storage and bandwidth.** The camera's low bit rate (LBR) setting reduces storage and bandwidth usage by 50% or more in most applications; streams can drop below 1Mbps at 2MP (15 fps).
- ▼ **Image is always in focus.** The camera can focus automatically based on zoom position, allowing it to remain in constant focus.
- ▼ **Remote zoom and focus.** No need to manually zoom and focus from the top of a ladder. Installers can zoom in and out remotely with the click of a mouse.
- ▼ **Hallway mode.** To capture vertically-oriented scenes, such as hallways and corridors, the camera provides a 90° rotation so images are created vertically, maximizing the field of view in narrow situations.
- ▼ **No need for pipe threader on-site.** The EMT mount is perfect for high ceiling drop installations; it allows the dome to be affixed directly to a pipe (e.g., PVC) without the need to thread the pipe.

Get 1080p video and a flexible field of view to capture high-quality images in challenging lighting conditions.
